To Avoid Take-Over by Troops

Ulster Strikers Cancel Threat Of Total Electricity Blackout

BELFAST, May 19 (AP1.—A state of emergency was declared in Northern Ireland today and militant Protestants reacted by withdrawing threats to organize a complete power shutdown in the province beginning at midnight. The emergency declared by Merlyn Rees, Britain's minister for Northern Ireland, empowers him to use British troops to run the province's five power stations other essential services -many of which have already been

crippled by a five-day general Within hours of his declaration, the Protestant militants' Ulster Workers Council backed off on its threat of a total electricity blackout. It said that power supplies would be maintained at a level "necessary to insure the safety of the system" and essen-

[The workers' council said that was withdrawing its totalblackout threat on the condition that troops not be sent to the power plants, United Press International reported.l

Council sources said that power cuts would continue but that hospitals and other essenfacilities would receive enough electricity to function. The council's strike is directed at a pact signed in December between Britain, Northern Ireland and the Trish Republic which gives Roman Catholics a share in running the province and

would set up a council of Ireland. The Protestants view the pact signed at Sunningdale, west of London-as a sellout by Britain and the first step toward a unifi-

cation of Ireland. Four of the province's power stations—two in Belfast, one at Coolkeeragh near Londonderry and another near Larne in County Antrim-have already closed because of a walkout of stokers. A second station near Larne was still working because it is

Belfast and Londonderry were hit by power cuts of up to four bours at a time today. The rest of the province suffered power cuts of varying degrees, with a minimum of eight hours off.

The walkouts and the power cuts have already closed factories. shipyards and hundreds of shops. Lack of power for sterilization and pasteurization processes has closed many dairies and more than 200,000 gallons of milk have been poured down the drain. Hospitals performed surgery only in emergency cases and used their own standby generators.

Some essential services, such as food and drug stores, transportation and medical services were still operating. But Belfast municipal authorities warned that sewage could soon be flowing in the streets and polluting rivers. If power were to be completely shut off, there would be no drink-

rebuilt and resettled by the Syrians, the papers said.

The three hills guard the three forwardmost Israeli settlements established by Israel in the area since it captured the heights. They overlook Kuncitra and the rend to Damascus.1

Demarcation Line

Until yesterday, the key assuc holding up a breakthrough was tha small but significant differbetween Syria and Israel over the placement of the demarcation line marking the extent of Israeli withdrawal from occupied Syrian territory. Mr. Kissinger had let it be known that he believed he could negotiate the rest of the disengagement agreement once he had the line worked out

Although a senior American official had said that in geographic terms the two sides had been only a mile or so apart, Syria and Israel apparently could not bridge that gap until Mr. Kissinger offered his compromise proposal

These were first broached in Damascus on Thursday night, discussed at length with the Israelis on Friday and tentatively accepted by Mr. Assad yesterday. Last night, Mr. Kissinger, upon

his return to Israel, discussed the situation with the Israelis and the Israeli cabinet formally gave its endorsement of his compromise. After the cabinet meeting, Mr. Kissinger and his top aides met with the Israelis for a wide-ranging discussion of the disengageent.package,

Very Favorable

Following that meeting, Mr. Peres said, The attitude of the Israeli delegation to the American proposal was a very favorable and a very positive one. I think the line which was prois of such a nature that both sides can accept it."

Mr. Kissinger was described by an intimate today as having been "terribly depressed" yesterday morning when he thought be would probably have to return to Washington without an accord. Today, however, be was clearly in a good mood. He sat beside the King David Hotel swimming pool for part of the afternoon with his wife, Nancy, occasionally walking over to joke with a few newsmen.

But American officials, including Mr. Kissinger, continued to caution that there were still important details to be arranged on collateral issues and that it was premature to say that the agreement was wrapped up.

Diplomatic Caution

This was interpreted by most of the newsmen ar normal diplomatic caution.

Among the items remaining on the agenda were the size of the buffer zone that would be set up between Israeli and Syrian forces on the Golan Heights, the role for the UN to play in supervising that zone, the limit to be placed on each side's military forces in the zones adjacent to the buffer zone and the release of prisoners. In addition, Israel in particular

wants certain guarantees from the United States such as those included but not published in January's Egyptian-Israeli disengagement agreement. These include willingness by the United States to conduct impartial reconnaissance flights over the area and a firm commitment by the United States that it would use its veto to prevent the dissolution of the UN force in the pistol. PARIS. May 19 (WP).-Conservative Finance Minister Valery Giscard d'Estaing defeated Francois Mitterrand, the candidate of the united left, in an extremely close runoff election today to become president of France.

In a victory statement shortly after 11 p.m., Mr. Giscard d'Estaing sent greetings to his "unlucky competitor" and predict-ed that Mr. Mitterrand would have a Tole to play in the present and future of French

Clearly reflecting the lessons of the vote, the new president promised "you will not be disappointed" by the 'political eco-nomic and social' changes he pledged during the six-week campaign. More than an hour later,

Mr. Mitterrand formally conceded the election. He attributed his defeat to a coalition of the establishment and "the powers of money" and vowed that "something has started which is not about to stop," while pleading for the left to remain united.

The Interior Ministry announced that with '98 percent of the voting stations reporting. Mr. Giscard d'Estaing hed 13.214,648 votes, or 50.7 percent, to 12,842,834 or 49,3 percent, for Mr. Mitterrand, Some of the vote from the overseas territories remained to be counted but cannot affect the

Computer projections gave the 48-year-old finance minister the victory soon after the closing of the polls at 8 p.m. The election mobilized a record turnout, showing that interest was high and the country evenly divided. Only 121 percent of the registered

Two weeks ago, the French ended 16 years of Ganllist domination by eliminating the Gaulliat candidate, Jacques Chaban-Delmas-and nine other candidates-in the first-round vote. The clear runoff message was that the country demanded

Leftiist Alliance

Although Mr. Mitterrand, 57, had not yet formally conceded. Mr. Giscard d'Estaing's supporters started honking their car horns and driving up and down the Avenue des Champs-Elysées around 10 p.m. in the ritual celebration of political victory.

Pending detailed analysis of the runoff vote, the narrow margin of Mr. Mitterrand's defeat was generally ascribed to the controversial alliance between the renascent Socialists and the powerful French Communist party.

Throughout the campaign, Mr. Giscard d'Estaing and his prin-cipal lieutenants hammered incessantly at the danger of having Communists holding a third of a new government's ministries, which was implicit in a Mitterrand victory.

Spokesmen for both major leftist parties made it clear that they intend to exert maximum vigilance to oblige Mr. Giscard d'Estaing to make good on his lavish campaign promises, ranging from increased old-age pensions and minimum wages to lowering the voting age from 21 to 19. Although the left's spokesmen

stressed that they would honor the election results, observers were fearful of industrial strife stemming from the closeness of the vote, inflation running at an annual rate of 17 percent and possible recession brought about by the increased costs of oil imports. But Mr. Giscard d'Estaing's

victory apparently simplified the purely political problems arising from the death of President Georges Pompidou on April 2. Majority Alliance

Despite the wounds left by Mr. Giscard d'Estaing's first-round elimination of Mr. Chaban-Delmas, the new president can count on the Gaullists in the National Assembly to form a new government. The Gaullists con-trol 181 of the assembly's 490 seats, with Mr. Giscard d'Estaing's own party-the Independent Republicans holding 55 seats, and their new and old centrist allies accounting for 60 more deputies

Shah Adroitly Mixes Diplomacy With Oil

TEHRAN, May 19 (NYT).-The shah of Iran, who predicts that "the great civilization" he fosters here will graduaily make Iran a major world power, has begun to press his strategy for making his country ao increasingly dominant force in the Middle East and southern Asia.

Shah Mohammed Reza Pahlevi, with virtually authoritarian control of his country's political life, has been using standard diploma-

Soviet Police Take Priest From Church

(Continued from Page 1) ferred to a provincial parish, but he said he would leave the church rather than take this

"What guarantee could I have," he asked, in a letter to the patriarch which he read in church last night, "that tomorrow . stronger measures would not be taken against me?" Obviously, he said, the church was trying to make him "stop my active ecclesiastical work."

It was a reference to his meetings at which he answered parishioners' questions. He held 10 of these meetings on Saturday nights this year. The main themes of his answers were that the Soviet state had deprived its citizens of belief in life after death, forcing them to "live for today," but that, nevertheless, a religious revival was under way in Russia.

He also openly discussed such taboo issues as state interference in the church hierarchy, the use of prison camps and psychlatric hospitals to punish believers and other dissinents, and the popular desire for Bibles and religious training.

In his letter to Patriarch Dimen, Father Dmitrl said his meetings indicated that the ordinary form of preaching in Russian Orthodox Churches was too "abstract and inaccessible to contemporary man."

His new form of meetings, the priest said, seemed to be "understandable" to ordinary persons, and thus attracted widespread interest.

The audiences for Father Dmitri's meetings grew on each occaslon, until more than 1.000 persons were crowded into his small church on May 4 for what was supposed to be the last session. However, Father Dmltri an-nounced that night that the patriarch had forbidden him to hold the meeting until he met

In the letter he read last night, the priest revelead that he had not been able to see the patriarch, so he had written to him to arrange a meeting to discuss the enormous interest his sermons had evoked. He wanted to discuss it, he explained, because "I was in no position to satisfy all the requests of my question-

Israeli Boats Said to Kill 8 In Shelling of Lebanon Coast

Israeli gunboats, protected by an umbrella of jet warplanes, today bombarded a Palestinian camp near Tyre, Lebanon's southernmost city. A Lebanese Defense l'inistry communiqué said that one gunboat was hit by shore batteries.

Initial reports said that six civilians and two Palestinian guerrulas were killed, four civilians were wounded and a number of dwellings were destroyed at the Rashidtye refugee camp, two miles south of Tyre and about nine miles north of the Israell border. An announcement from Israel

said that the boats shelled "buildings and installations occupied by terrorist units." It said that all the boots returned safely from the

The camp's 12.000 inhabitants make it the second largest Palestinian refuge in Lebanon. It is controlled by one of the most militant querrilla groups, the Popular Front for the Liberation of Palestine. The bombardment this after-

noon lasted a little more than an hour, during which the Israeli aircraft overhead did not fire at the camp. The Lebanese Defense Ministry

said that "all our heavy guns participated in firing" on the raiders, which it said were four to six mlles offshore, "Smoke was seen pouring from one of the boats after it took a direct hit," the ministry said. The attack from the sea fol-

lowed two days of Israeli air raids on Lebanon in retaliation for the

Russia Reported To Interrogate Israelis in Syria

LONDON. May 19 (UPI).— Soviet military interrogation teams have been questioning brackli prisoners held in Damescus since the October Middle East war. The Sunday Times said today.

"The interrogators have employed medical and other techniques to break the resistance of the Israelis and several of the prisoners have apparently talked,"

it said. The Sunday Times attributed its information to "exceptionally highly placed Arab military and political sources."

It said one drug used by Somet interrogators - although not necessarily on the Israeli prisoners—was succinyl choline, which causes "convulsive muscular spasins, then leaves the victim totally paralyzed, unable to breathe, in agonizing painbut wholly conscious."

The drug wears off in two minutes or less and then the tection is threatened with another dose unless he talks, the newspaper said.

Chou's Status, Teng's Rise Bemuse the China Watcher

By H.D.S. Greenway

HONG KONG (WP) .-- The state visit of Archbishop Makarios, the President of Cyprus, to China is being watched with more than the usual interest here for signs of Premier Chou En-lai's continuing withdrawal from many of the diplomatic functions that usually surround these visits. When the archbishop arrived in

Peking Friday, it was Vice-Premier Teng Hsaio-ping who met him at the airport, not Mr. Choo, and China watchers will be watching for further signs that Mr. Teng has been chosen to take over the responsibilities Mr. Chou once kept for himself.

Mr. Teng stood in for Mr. Chou during much of the visit of Prime Minister Zulfikar Ali Bhutto of Pakistan last week, and Chinese officials said that Mr. Chou was unwell because of old age.

ed with shoppers. The explo-sions occurred without warning, killing 23 persons, including several infants. Earlier reports had put the death toll in Dublin Mr. Teng presided at a state dinner last night for Archbishop Makarios. He said he had been entrusted by Premiar Chou to be at 25. Another car bomb killed fire persons in Monaghan, a the host at the dinner.

The police believe at least eight persons were involved in the combings. "We believe some of these men may still be trapped inside the republic," a police At least three persons were being questioned as a result of the stringent security checks set volved as well as physical.

> too carefully stage-managed to be explained solely in terms of a sudden physical falling. China watchers suggest that what the world may be seeing is Mr. Chou'a gradual abdication from the dayto-day running of the government, which he has so dominated since the fall of Lin Plac in 1971. Mission to UN

that Mr. Teng is being groomed for power in the field of foreign affairs, and perhaps for bleger derground movement, fighting to drive the British from Northern things. His mission to the United Nations last month was evidence of this, and the recent photo-graph of Mr. Teng in Mr. Chou's old seat on the right hand of Mao Tse-tung during Mr. Bhutto's visit was even more compelling. Mr. Chou had switched to Mr. Mao's left, and the symbolic importance of such a switch would not be lost on the Chinese.

> When Mr. Bhutto arrived, Mr. Chou failed to show up at the airport and this time Vice-Premier Teng took his place. Mr. Chou met with Mr. Bhutto at the state guest house instead.

with Mr. Bhntto and even took over some of them. He gave the first dinner in Mr. Chou's name and gave the toast at Mr. Blutto's banquet without bothering to mention Mr. Chou.

Hsiao-ping? He was denounced as

the "second capitalist roader" after deposed chief of state Liu Shao-chi during the cultural revolution. How did he go from the second-most-hated villain in China to what looks to be the second most important official in the government in eight years? And why was Mr. Teng rather mysteriously elevated to the Politburo in January when all the other Politburo members were announced in August after the 10th party congress? The congress itself was unusually brief and was called without the usual prelim-

ly answer those questions, but behind the facade of the present campaign to criticize Lin Piao and Confucius there appears to be a struggle for succession. Some say Mr. Teng may be Mr.

Mao's personal choice, but more likely his increasing influence is the result of some internal compromise between political factions. It may have something to do with keeping the army in line, for Mr. Teng would hardly be the candidate of the radical left.

Stands by Testimony

Mr Mitchell's lawyer said Friday that his client would stand by his testimony to the Senate committee.

In the testimony last July. Mr. Mitchell was asked by Sen. Herman Taimadge, D-Ga., why he had resigned as campaign

Mr. Mitchell replied, "I bad some long-range telephone and publicized threats [from his wife. Marthal that, if I didn't get out of politics, I was going to lose my marriage."

Sen. Talmadge then asked, "It had nothing whatever to do with the Watergate matter?" Mr. Mitchell answered, "Nonc whateoever."

According to the Indiciary Committee's transcript, the portion of the tape that the com-mittee heard begins with Mr. Hal-deman, former White House chief of staff, saying, "Well, there may-be is another facet. The longer you wait, the more risk each bour brings. You run the risk of more stuff, valid or invalid, surfacing an the Watergate caper type of

Mr. Nixon agreed saying. "Yes, that's the other thing, if something does come out, but we won't —we hope nothing will. It may not. But there is always the risk."

'Story' Outlined Then Mr. Nixon made it apparent that the matter under discussion was Mr. Mitchell's resignation and the President told Mr. Mitchell the "story" that would be used to announce the

resignation.
"Well, I'd cut the loss fast," the President said: "I'd cut it fast, If we're going to do it, I'd cut it fast." Mr. Nixon went on to say:

"I think the story is you're positive rather than negative, because as I said I was preparing to answer for this press conference, I just wrote it out, as I usually do, nne way—terribly sensitive Iunintelligible! A hell of a lot of people will like that answer. They would, And it'd make anybody else who asked any question on it look like a selfish son a bitch which thoroughly intended them to look like?

Mr. Nixon told Mr. Mitchell that "otherwise" the resignation "will be tied right to Watergate," and he assured Mr. Mitchell that the matter would be handled "in a way that Martha's not hurt." Mr. Mitchell replied, "Yeah,

attorney, was asked Friday about the discrepancy between the transcript and Mr. Mitchell's testimony. The lawyer respond-ed, "We'll just stand on our

Mr. Stans, a former secretary of commerce, was first served with the Jaworski subpoens Feb. 25. Testimony at Friday's hearing disclosed that Mr. Stans's lawyers, immediately on learning of the subpoens, had sent for the keys to filing cabinets in which the subpoensed papers were kept and that Mr. Stans then asserted that the files were "personal" and, therefore, protected by his Fifth Amendment right not to

incriminate himself.
In an attempt Friday to persuade Judge Hart that the Stans documents are, indeed, "official" papers subject to subpoena, Mr. McBride and Charles Ruif, Jaworski staff prosecutors, questioned several witnesses, including Herbert Kalmbach, Mr. Nix. on's former personal lawyer and a key fund raiser for him under Mr. Stans.

Ran Illegal Fund

Kalmbach pleaded guilty in February to running an illegal congressional campaign fund in 1970 that secretly raised millions of dollars for the Republicans and of promising a European ambassadorship to another donor in return for a \$100,000 contribution. Kalmbach said Friday that be had "asked Mr. Stans for his assistance in seeing that the commitment [the ambassadorship] was met."

The government subpoens secks Mr. Stans's telephone logs, appointment calendars, "ambassador lists" and other special-contributor lists recommending appointments to government posts. "political files" and a so-called

"list" of noncontributors. Although Mr. Stans's lawyers insisted that their client's files do not now contain such lists. Kalmbach testified that an "ambassador list" had been kept. He said he had had "numerous discussions" with Mr. Stans-"perhaps 300 meetings or phone calls" on contributors whom Kalmbach described as "nominees for government posts."

The grapt proposed of blue bill -the color tarm, were the most in the tablet—here is broad a spectrum of medical uses and are so frequently processed that many Americans are not not de Alth Valitas di thian sega and controversy had by a raced about the entrot of c, use,

Last year occording to counces in the drug moustry one or 19 Americans aged 18 and older took Valium at one time or another for a wide variety of reasons. such as convulsions, alemonsin, alcep disorders, headacties, even painful acqual intercourse. But his use as a minor tranquiliter for symptoms of anxiety accounted for a large share of the estimated 57 million prescriptions

written last year. Millions of people-government officials, businessmen, policemen, farmers, journalists, doctore, among others-keep the tranquil-

eriods of stress. Rother than tak, Valum regularity over long periods, most patients are advised by the doctor to take it as they feel it is needed to relieve their anxiety symptoms.

Many tense patients with heart olscase take Valium as an adjunct to digitalis and other regular cardiac therapies.

Vallum's invisterious power to act on the brain and thereov relax muscles has reportedly made it the drug that professional football players with muscle sprains

take it to help relieve pain from back prains and slipped disks. Many obstetricians inject Vahum into mothers' veins in labor to help make delivery easier, Dentists often prescribe it to calm andicties before they drill or pull

The results of an international study on the use of anti-anxiety grugs, published in the New England Journal of Medicine last month, have put a new perspec-

Americans, Drug Seized in Bolivia

LA PAZ, Bolivia, May 19 (AP). Police have seized four Americans and 18 pounds of pure cocaine worth an estimated \$3 million and said that the men were couriers for a blg ring that operated in Mexico, the United States and Canada,

They said that the men were arrested Thursday night as they were about to board a flight north. Police sald that the cocame, discovered in false-bottom sullcases, was destined for Mexico and the United States. The Americans were identified as Albert Eloehn. Charles Boggess, Ronald Lacroix and Kenneth McDonald. The chief of Bolivia's narcotles

police. Maj. Guido Lopez, who bas resigned, because of "reasons of health." said, speaking of the four: "I just hope they are tried in the United States, because in three years of work the narcotics brigade in Bolivia managed to carry out more than 200 arrests and every single one of these individuals is now free."

States of Valium and its close pharmacologic cousm. Librium. Librium reportedly is third in

prescription sales in this country, Both Valium and Librium, which belong to a class of drugs called benzodiazepines, were discovered by Hoffman-Laroche, the drug's sole manufacturer.
The study found that the pro-

portion of people who used such drugs on one or more occasions during a one-year period ranged from a high of 17 percent in Belgium and France, to 16 percent in Sweden, 15 percent in Donmark, 14 percent in West Germany and Britain, 13 percent in the Netherlands, 11 percent in Italy and 10 percent in Spain.

Valium is believed to act on the portion of the brain known as the limble system, but just how the drug relieves anxiety is something nf a scientific mystery.

A chief factor in Valium's huge sales is its relative safety. Doctors say it is difficult to use Valium as a means of committing suicide. Vabum acts on the brain at doses far helow the toxic

range of a barbiturate. Psychological addiction to Valium has been reported, and a patient can convulse if he stops taking the pills after prolonged use. Large doses of Valum can cause mental confusion, sleepiness, a staggering gait and coma. Such side effects can be aggravated

when a person drinks alcohol. Accordingly, doctors have been warned to tell users not to drive ter using Valium. Concern about overuse of Valium has also led to other warnings in medical journals that only some anxious patients need the drug.

To Johnson for A-Test Halt

-Robert Maheu testifled here Friday that in 1968 Howard Hughes assigned him to offer \$1 million to President Lyndon B. Johnson on the condition that nuclear-weapons testing be

Mr. Maheu, a witness in his own \$17.3-million defamation suit against the Hughes interests, for which he once worked, testified in U.S. District Court that the offer was to have the money delivered after Mr. Johnson, who has since died, left the White

But Mr. Maheu said that, although be went to the LEJ Ranch, where the President was resting, he never presented the

Soon after President Johnson announced in March, 1968, that he would not run for re-election. Mr. Maheu testified, Mr. Hughes asked him to arrange a meeting at which he could give the President some messages that Mr. Hughes said be would give to Mr. Maheu for delivery.

Just before be was to fly in a private plane from Dallas to the Texas ranch, Mr. Hughes told him what the messages were, Mr. Maheu testifled.

The first point, he said, was that he was to "feel out" Mr. Johnson about his attitude toward ending the war in Vietnam. The second point, he testified,

he left office if he would stop the nuclear tests, which were being carried out in a desert testing ground near Las Vegas, where Mr. Hughes lived.

The President said that be bad received a note from Mr. Hughes about nuclear testing, Mr. Mabeu testified. Mr. Johnson said that the note was wrong in some points and that he did not plan to include it in his official papers because of the embarrassment : might someday create for Mr. Hughes, the witness said.

Mr. Maheu also said that he told Mr. Johnson that Mr. Hugbes was interested in the President's future, and asked "bow could we be of help" to him.

Mr. Maheu said the President replied that his chief interest was the LBJ Library and that all he would hope for was that Mr. Hughes would make a small con-

"I never made any suggestions beyond that point," Mr. Maheu testified. He said that Mr. Johnson said the nuclear weapons tests were of extreme importance to national security and must be continued.

Portentous Irrelevancy

In the context of India's accumulating socio-economic problems, the explosion of a nuclear device in Rajasthan has all the irrelevancy of a firecracker let off in a panel discussion on food and poverty. But, considering the still urgent need in the world to limit the threat of nuclear war, the blast under the Indian desert is a portent, and an unhappy one.

These conclusions will stand up against the Indian claim that Its interest in atomic power le confined to peaceful uses. India does need energy, and the atom is an obvious source. But is it necessary for India to go back to the raw beginnings, the dangerous beginnings, of the effort to unleash the atom at White Sands to find economically useful techniques? Explosions can ehift the earth, and there is some talk in New Delhi that they can be used for mining-but they can also level cities and disrupt ecologies. The experiment in Rajasthan serves no obvious Indian need, but it does set up shock waves that are being felt both close to and far from the subcontinent.

India never signed the 1968 treaty whereby the chief nuclear states promised not to supply non-nuclear states with nuclear weapons. and the latter agreed not to develop their own. The Indian objection was quite logicalthe treaty would have imposed obligations on those countries without nuclear weapone that did not apply to those who had them. The concentration of nuclear military power in a few hands did not, in fact, mean global hegemony by the big nuclear powers, since they constituted a standoff.

The limitations which the nature of nuclear weapons imposes on their principal possessors can be seen in the efforts, however tardy, the United States and the Soviet Union are making to limit their stockpiles. Even more dramatically, those limitations are evident in Secretary of State Henry Kissinger's patient efforts to talk Israel and Syria into a cease-fire. If nuclear blackmail by a superpower were practicable, surely it would have been applied here—or in Indochina, or in any of the tangled diplomatic and military situations in which the United States has been involved since Nagasaki.

There certainly is danger for the world in the possession of vast nuclear power by any state, or any number of states. But that threat is compounded by proliferation. The possibility of the selzure of the atomic hutton hy some irresponsible person or group in Washington or Moscow has been explored and exploited in fiction and in scher treatises. The wider the spread of nuclear military technology, the greater the peril: Soviet and American leaders have repeatedly affirmed their recognition of responsibilityhut states exist now whose interests are much less worldwide and whose political etability is far more precarious.

This is not to say that India itself will abuse the power it has just acquired. But the example is a had one, the tensions it sets up and the possibilities it contains can bring no apparent good to India's millions, while creating new risks around the world.

Authority in Bonn

West Germany's new Socialist chancellor, Helmut Schmidt, is the right man, in the right place, at the right time. The government he has formed in close negotiations with the Free Democrats augurs well for his prospects. No second step was possible until this essential first move had been made to reshape and preserve the political alliance that provides his Bundestag majority.

This first successful operation brings into view a lesser-known facet of the Schmidt personality, that of political negotiator. He shows a tough, prickly, energetic, even arrogant and somewhat nationalist exterior that can worry less confident Europeans. But beneath the surface, there are intellect, knowledge, a pragmatic ability to analyze partners and possibilities.

AH this was needed in working oot the ery compromises that held the Brandt coalition together, moving the ambitious new Free Democratic leader, Hans-Dietrich Genscher-who speaks no foreign languages and knows little of foreign affairs-into the post of foreign minister to replace Walter Scheel, who is West Germany's new president. The departure of Egon Bahr, the architect of Bonn's Ostpolitik, is more related to the resignation of his mentor for two decades, Mr. Brandt, than to the partial shift of interest to Westpolitik from Brandt's eastern construction, which is largely completed.

The major surprise is the promotion of youthful Hans Apel as finance minister. As state eccretary for Common Market affairs in the Foreign Ministry and a Schmidt confldant, Mr. Apel in the past has talked tough in European community negotiations. But, despite the new chancellor's Atlanticist views, he knows that his chief challenge abroad is to make the European community move forward again. Mr. Apel's knowledge of the ways of the Eurocracy will be invaluable in this task.

Mr. Schmidt faces two dangers: His party's popularity has dropped sharply as a result of weak leadership, inflation, energy-related economic strains, a psychological malaise and radicalism among young Soc. lists. The dynamism that is his greatest appeal could

But as the kind of authority figure to whom Germans traditionally raily, he was unchallenged in picking up the reins of party leadership Willy Brandt dropped. The question now is whether he can bring the country as a whole to respond in the same

Car Bomb Cowardice

After Maalot the world needs no reminders of the mad horrors political terrorism can produce. But few atrocities compare to the cowardly practice of planting time bombs in public places for indiscriminate killing of innocent passers-oy.

The four car hombe that exploded during the commuter rush hour in downtown Duhlin and the town of Monaghan Friday took more than twice as many lives as all previous acts of violence in the Irish Republic since the beginning of the Ulster troubles five years ago. And the human tragedy is compounded by the political circumstances.

The perpetrators are as vet unknown but. whether they were IRA or Protestant extremists, the objective was the same. Both extremes in this internecine struggle are opposed to the compromise solution accepted late last year hy Catholic and Protestant

moderates in Belfast in an attempt to share power in Northern Ireland and end killing. Their coalition government put Catholics Into the Ulster Executive for the first time in history a settlement brought about with the mediation of the Irish as well as the British

It is that act which has made Dublin the enemy of both extremes, though the IRA protests police suppression in the Irish Republic while the Protestants in the province berate Dublin for failing to close the horder effectively to IPA infiltrators. Killings in Northern Ireland passed the 1,000-mark last month. Their continuation and their extension on a large scale to the republic, despite a political solution that deserves a serious trial carries fanaticism to a despicable low.

THE NEW YORK TIMES.

International Opinion

Maalot and Reprisal

Attempts by Palestinian and other Arah leaders to shift the guilt for the sordid crime against Israeli children at Maalot onto the Israelis themselves is not only shameful but mischievous. The only hope of averting an endless repetition of these inbuman acts is for all responsible leaders—and especially for those whose cause is injured by such acts-to combine in denouncing them and not to offer lame justifications.

Whatever might be said in criticism of the Israeli reprisal raids, especially when they involve the loss of even more innovent young lives, it is time for the Security Council to take notice of the failure of the Lebanese government to act firmly against the Popular Front for the Liberation of Palestine, This irresponsible and most extreme splinter group has boasted of its responsibility for the bloodbath at Maaiot as well as for the recent brutel killings at Otryat Shmona. -Frem the Observer (London).

Détente and the UN Charter

By Eugene V. Rostow

NEW HAVEN, The administration has contended, as Prof. Marshall D. Shulman, director of the Russian Institute of Columbia University, sums up its position, that Sen. Henry M. Jackson's amendment to the Trade Reform Act requires the United States to choose "between morality with continued high tension and detente with trade." The United States faces no such Everyone who writes about

Soviet-American relations seems to use a different definition of the talismanic word "detente." For Professor Shulman, "détente" is the beginning of a process through which the terms of Soviet competition with the United States are codified, particwarly by reducing the danger war d the military elements in the continuing competition between the two countries, and encouraging restraints in other aspects of their competition.

If this is détente we have had it since 1945. But until now, we have called it "containment" and "cold war." The push and puli of Soviet-American military coofrontations since the early postwar crises in Iran. Greece. Turkey and Berlin have indeed "codified" the limits of Soviet expansion beyond which the Russians came to understand that ther faced unacceptable risks, And every American president has earnestly sought to translate these conditioned cold war reflexes into a more positive and explicit political understanding, which could be the basis for secure and peaceful relations.

Carrots and Sticks

In that effort, the United States has maintained a continuous dialogue with the Soviet Union, never interrupted even at moments of confrontation.

We have used both carrots and sticks: the offers of the Marshall Plan, and the wheat deal and other economic projects in 1972, on the one hand, and the delicate and not-so-delicate signals of crisis management on the other.

The ling cycle of nuclear conversations and negotiations is one theme in the symphony, linked to summit meetings at Geneva, Camp David, Glassboro and Moscow. So is the pattern of crunch through which the Russians have periodically tested our willingness to defend our interests.

It is an abuse of language to define détente as anything less than a clear agreement for peaceful co-existence in the American. not the Soviet sense-an agreement, that is, committing the Soviet Union to obey the rules of the United Nations Charter with respect to the use or the threat of force in international relations, and to carry out its other international obligations. The charter is not a suicide part. There can be no détente until there is reciprocal respect for its

hasic rules of public order. Clearly. President Nixon thought he had achieved an agreement of this character in his ill-faten Declaration of Basic Principles on relations between the United States and the Soviet Union, signed in Moscow on May

That nocument makes melancholy reading today. In it, the two nations say they "will procsed from the common determination that in the nuclear age there is no alternative to conducting their mutual relations on the basis of peaceful co-existence." Therefore, they agree that they will cooperate to present the occuloument of situations that could strain their re-

Each country says it will refrain from seeking to obtain uni-

lateral advantage at the expense of the other, respect each other's security interests and renounce the use or the threat of force. In the communique issued at the same time, the two governments undertook generally to concert their diplomacy in the interests of peace, and specifically promised full support for diplomatic efforts to being about a peaceful settlement of the Middle East conflict in accordance with a Security Council resolution of Nov. 22, 1967.

Action, Promises

There is no way in which the recent pattern of Soviet armament and action can be reconciled with these promises. In the Par East, the Soviet Union does not even pretend that it is carrying out its obligations under the Indochinese accords of 1962 and 1973. Instead, its diplomats say that the accords will be carried out "as soon as possible."

Those agreements require the

Soviet Union to get the North Vietnamese out of Leos and Cambodia, and to have them refrain from interfering in the internal affairs of South Vietnam. Instead of fulfilling these agreements with us, the Soviet Union is giving full support to North Vietnam in its active campaign against all three countries. And in the Middle East, far from cooperating with us, before or after May 29, 1972, to bring about a peaceful settlement of the conflict in accordance with the Security Council resolution; the Ruselans helped decisively to prepare,

equin and organize the Arabs and

encourage the 1973 war, against

the mandate of that resolution. They exploited Arab hostility to the existence of Israel as the rictorator of a war that was intended to achieve irreversible change in the area and in the relations of the United States to Western Europe. Despite the sethack their plan suffered in October, the Russians persevere. As recently as March 12, they were urging the Arabs to continue their oil embargo against the United States and the Nether-

lands. President Nixon, suffocating in the coils of Watergate, keeps telling us that he has replaced the cold war with detente, substituted negotiation for confrontation, and achieved "a generation of peace." This is a grievous breach nf political ethics.

We confront two implacable facts: the Soviet military buildup is continuing at an ominous rate, and Soviet political policy is more and more obviously fixed in a mood of muscular imperial-

It is possible to claim, as Professor Shulman does, that American trade concessions and credits could help persuade the Russians to accept the rules of "detente." We experimented with that thesis through our recent investment credits to the Soviet Union and our generous sales of wheat, We were repaid by the October war in the Middle East and by Soviet

Nixon Interview

'After Me the Deluge'

By James Reston

WASHINGTON—In his self- make some progress town revealing interview with James J. Kilpatrick of the Washington Star-News, President Nixon gave three main reasons against his resignation or impeachment: First, It would be "wrong." For, he added, "I am not guilty of any offense under the Constitution that is called an impeachable offense,"

Second It would weaken future presidents by making it more difficult for them to take the tough decisions, "Every president in the future would be constantly poring over the polls and looking over his shoulder toward Capitol

Third—the key point he added -'the United States holds the key to whether peace survives and whether freedom survives . . . I have to be here, and I intend to be here."

This is not an overly modest appraisal. For, nn Point One, he presumes to pass judgment on his own case before the jury has heard all the evidence. On Point Two, he presents himself as the protector of the presidency, which his administration has gravely weakened. And on Point Three, he seems to think he is personally the main hope of peace and freedom in the world. This was the theme of Louis XV: "After me

Apocalyptic Terms

There is nhviously something topsy-turvy in all this, considering the deluge Nixon has already created. For he is not the judge in these impeachment proceedings but the accused. He is not in trouble because he has held up the presidency hut because he has let it down. And the hope nf peace and freedom in the world lies with a united America, and not with a divided nation under a President who has lost the trust of a majority of the people.

Yet the President speaks in apocalyptic terms, "We bave one of those times," he told Kilpatrick, when certain forces are coming together that may never come together egain. We must seize this moment. If we do not scize it, the world will inevitably move to a conflagration that will destroy everything that we have made-everything that the civilization has produced,"

Presumably, he means by this

more stable world order, (1) Mao Tse-tung and Chou are still in power in China while Brezhnev is showing interest in nuclear arms c in the Soviet Union: (3) Sadat and Faisal are mode influences in the Middle and (4) while Europe is stiing toward some kind of co purpose.

There is something to be for this argument. This deed a time of tumultuous c and there are opportunities practical compromises, but t not follow from this that di will overwhelm the human if Nixon personally doesn't the moment."

Foreign policy, the Pre told Kilpatrick, is no longer by foreign ministers, it is hy heads of state. This w news to Henry, the Polithur the queen of England

Over personalized

Still Nixon bas always h weakness for overdramatizing overpersonalizing politics, as is still at it. He will not do He will not do that. He wi them-meaning his political mies. He will decide whal peachment means and what dence will be released to the gress. His pride will be say nothing else.

And the remarkable thing: all this is that Nixon reall lieves it-believes he has not mitted a crime—his definition an impeachable offense. Be he is saving the presidency, and freedom, and believes h still do all this and handl impeachment trial too. Of course it was precisely

sumptions like these that led into such deep trouble infirst place. He was going to things his way with his private gang, and no non from the Congress or the or even the cabinet.

Impeachment Abounding

By William F. Buckley Jr.

suppositions concerning

of the past few days. 1. Mr. Nixon was in very bad shape during the weekend before this one. For a while it appeared as though what one might call the Eagleton effect was about to overtake him. One does not, as a Republican President, easily withstand, in a single week, calls for resignation from citadels of journalistic Republicanism in the Midwest, in the Far West and in Florida; and suffer the rebuke of the leader of the Republican forces in the House of Representatives and in the Senate. The intense speculation on Friday a week ago that Mr. Nixon was about to resign prompted him to take measures very nearly desperate in character: he dispatched his own daughter to look the press in the face and say to them that they could take it from her, that her father did not intend to

It is left to speculate what Mr. Nixon did privately. It is plausible to assume that he passed along the word to his remaining supporters in the conservative ranks of the House of Representatives that inasmuch as he would not resign, calls upon him to do so would be unavailing; and that he was prepared, now, to fight his battle not so much against im-

back is a dollar cutback. Two years ago. Congress authorned a maximum annual expenditure in Laos of \$375 miltion, with \$50 million going for economic and humanitarian work. but most being fed into the war

This year, the United States is still expected to contribute \$50 million for things like schools. roads and hospitals. Pathet Lao pro-Communist: ministers in the new government have privately admitted that they will be happy to get the money. President Nixon is seeking only \$65 million for military spending in Laos, U.S. sources said, and most of that amount wil go for salaries and training.

One item that will be missing from the military budget this year will be U.S. support for "irregular" troops from Thailand in Laos. For the last 10 years, the United States has organized trained, equipped, controlled and paid as many as 20,000 That sol-diers, who fought in Lao; in be-half of the Rhyal Lao Army.

This cost went as high as \$100 million a year at the height of the war, but onest of the Thate have already gone and the remainder are to be withdrawn That sources said, by the end of May.

America's acclining role in Lans is also reflected in the steady demise of charter operators like Au America and Continental Air Services, Inc. two companies whose chief customers were the CIA, AID and the Pentagnn.

65 South Koreans Face Trial. Death As Dissidents

SEOUL, May 19 (NYT) .- A South Knrean minister disclosed Friday that 65 Knreans and twn Japanese will be put in trial before a closed court-martial for anti-governmeut dissent as President Chung Hee Park presses a vigorous cam-paign to crush opposition here.

The Minister of Information Yun Chu Yung, said in an inter-view that the 67 were turned over to a prosecutor by investigators Friday and would be tried shortly. If convicted, the accused could receive the death penalty under a presidential decree of April 3, This will be the first trial under that measure. The ourt-martial, whose closed sessions usually last only one or two days, earlier sentenced 31 dissidents to prison for five to 15 years and suspended live sentences. There were no

acquittals. The accused were believed to include Lee Choi Yu In Tae, and An Yang No, university students involved in anti-government demonstrations on April 3. Others were believed to be Christian leaders who helped fmance the demonstrations with contributions from their congregations.

The Gaullist Legacy to France

By Don Cook PARIS.—There has always been

a kind of "son et lumière" quality about Gaullism, even when the production was at its height and Charles de Gaulle himself was alive and directing. Sound and lights were dazzling-

ly arranged to evoke the power and glory of France-resounding declarations, diplomatic shock tactics, splendio isolation, spectacular journeys, warm embraces, brutal snubs, high principles and low blows. But now it has finally faded. As the French elected a president yesterday, Gaullism was a spent force.

There are, of course, plenty of Gaullists still around, some of them quite important, and there are 183 members of the National Assembly who were elected under the Gaullist ban-ner in 1973. But Gaullist domination of French politics is finished, and the Freuch themselves are left wondering what the reality of Gaullism really was. Was it all slogans and pronouncements? What has France inherited from those heady years? What Gaullist principles and precepts will still prevail in

French policy? "All my life," Gen. de Gaulle wrote in the famous opening passage of his war memolrs, "I have thought of France in a certain way . . . as chosen for an exalten and exceptional destiny . . only vast enterprises are capable of counterbalancing the ferments of disintegration inherent in her people. In short, to my mind, France cannot be France without

greatness . . ."
And the general departed after having frequently commented that he would bave no successor. He himself apparently preferred that Gaullism would stand out by itself as a brief period of greatness in French history with chaos preceding it and mediocrity following it.

Gaullism was, indeed, about 80 percent style and 20 percent content and reality. The general had plenty of style, and was a past master at elevating trivia into political principle.

There was the occasion in 1962 when he sent the Mona Lisa to New York for exhibition at the Metropolitan Museum of Art. But

at the same time he was feuding with the United Nations over its decision to send a peacekeeping force to the Congo, and he instructed Ambassador Hervé Alphand in Washington to decline a dinner party invitation from Mayor John Lindsay in New York to mark the Mona Lisa showing because UN Secretary-General U Thaut had also been invited, Mr. Thant gracefully withdrew with a diplomatic illness, and Air.

Alphaud attended in triumph at this demonstration of France's "greatness" in humiliating the

secretary-general.

eral in this kind of "Gaullism." The trouble which everybody immediately bad when he departed from the scene was deciding what Gaullism really was,

Georges Pompldou, a pragmatic man, paid lip service constantly to the principles of Gen. ce Gaulle but he paved the way for Britain to enter the European Common Market, stopped interference in Quebec, called off doctrinaire attacks ou the United States, tievalued the French franc, eased up ou relations with NATO, and stayed cool and cooperative in the long and frustrating Amerition or was it not? The very fact that the Gaul-

list political party, the Union of Democrats for the Fifth Republic, turned into such a defeated and squabbling group so soon after Mr. Pompidou's death is ample demonstration that there is not and never had been any auch thing as true Gaullism except in the person and presence of the general himself. Today, Gaullism is nothing but the reflexes, reactions and rhetoric of those who claim to be its inheritors and interpreters, and they are all different.

Nevertheless, the Gaullist Fifth Republic has already lasted four years longer than the Fourth Republic, which expired in 1959 after barely 12 years of constitutional existence. Certain realities must, therefore, stand out from

First of all, France is polltically and economically stable and strong-and this is a true Gaullist inheritance. There are probleous and there are troubles ahead but there is a framework of stability and government

Secondly, French politicians of all shades, from the left to the extreme right, all rally and salute that magic Gaullist word "independence."

It is a simple fact of life that Gen. de Gaulle succeeded in reactivating the force and idealism of the word "independence" in France to a point where the simplest act of common-sense cooperation can instantly elevated into a matter of high principle. To cooperate with anybody is to sacrifice independence. Hence every invitation or overture to France is automatically examined in this light, and advantages for France gauged by this fundamental approach.

In short, it is perfectly possible and always has been for Prance to have an independent policy, a Gauliist policy, but still accommodate itself and play an effective and influential role. As a nation, it is far stronger in real economic terms today than it was in De Gaulle's time. And, hopefully, it will be a little hit more serene in the future as

"This is what I mean by the excesses. The Sharon Tate-Charles Manson case comes to mind. That was an incredibly interesting story for us. But in a short time there were other massacres, big killings. On a European newspaper you wind up equating a lot of things that happen in the United States with things that happen in Pakistan-it's a kind of 'so what' reaction."

Everything's Up to Date in Schnitzel City _It Too Doesn't Love the U.S. Any More

By John Vinocur

FRANKFURT (AP).—The Big Schnitzel, the GIs call Frankfurt. It is: Fat banks sitting on reinforced concrete haunches, trees greening with spring and immediately graying with dust from roadway digging, bars like the Florida Boy one door down from Dr. Muller's orange-frooted sex department store, hookers camping on the corners.

Dirt, crassness, money badly spent, noise—some Germans say the city is a ruthless caricature nf what Europeans find worst in the United States.

Aiter 20 years in which Schnilzel City offered Americans post-war humbleness and assimilated the electric toothbursh and U.S.type urban problems, things are changing. Some people think that, having chosen poorly from what the United States has to offer, Frankfurt and much of Western Europe are backing away from the fascination they found in things American.

A U.S. Army lieutenant tells of trying to buy an electrical fixture and running into a salesman who refused to speak English and is impatient with the lieutenant's rudimentary German. The officer apologizes to the man, saying he's been in the country only two months.

"In two months in an American prisoner-of-war camp had En-glish perfect learned," the salesman replies. "We are finished learning from you, Now you learn from us.

A German who has real understanding and affection for the United States says a lot of the old fascination is gone, "We have proved to ourselves that we can do bad things every bit as unsuccessfully as you do-look at Frankfurt-and we may be able to do some good ones better. The old inferiority complex is just

It is not just Frankfurt. Unscientific and occasionally contradictory, subjective evidence argues that an increasing number of Europeans consider America less and less a model or marvel:

Bonanza" and other canned American shows, sometimes two

works are down to two new U.S. serials a week. An official of the ZDF color network explained, Everybody still enjoys a Western, but most other things don't reflect our life or aspirations." • In the same color netwerk'e

headquarters by Wiesbaden, two secretarial jobs were offered simultaneously to the house staff. One was in Rome, the other in the network's Washington office at higher pay and tenefits. There were 34 applications for the Rome job and two for the post in Washington.

Atlantic Alliance Views

What Two Triangles Mean to Today's World

By Robert A. Scalapino

gular relations are of special importance to the world today One is the United States-Soviet Union-China relation, vital with respect to war and peace issues of nuclear weapon control, disarmament, and peaceful coexistence. The other is the United States-West Europe-Japan relation, critical to prosperity and development issues, monetary, trade and investment policies, as well as to the thorny problem of relations between the "advanced" and "emerging" societies.

But both of these three-way relationships pose the most complex difficulties. Communications among the major actor remain limited and strained. Basic policy agreement is exceedingly elusive.

In the HS-West European-Japanese triangle, recent history and contemporary trends have interacted to produce several major contradictions. On the one hand, in the aftermath of World War II. remerkable political unity and economic development were achieved in the West and Japan as a result of three factors: desperate needs, a discerned threat and American largease. Organic unity, to be sure, was

not achieved, nor sought. Relations between West Europe and Junan indeed, remained quite minimal with the United States the key link in the overlapping alliance. Nonetheless, basic political and ecocomic trends within the "advanced wurld" appeared to be relatively uniform.

Today, diversity competes with unity. Nationalism has re-emented as a vital, possibly dominant force within the so-called advanced world, both in the economic and in the political erena. Contrary to common assumption. moreover, important differences exist in the economic structures of the major industrial societies. Thus, the trends may be running es strongly toward economic, as toward political, multipolarism.

Few would deny that parliamentary democracy faces its most serious crisis since World Way II. A combination of economic and social problems threatens to overwhelm a system that has always been recognized as fragile by careful observers.

Challenges to Authority

Contrary to the Marxist opinion, most of these problems are not the product of economic starnation or political repression. On the contrary, they are the result of unprecedented economic growth and new levels of political freedom. It remains true, however, that the current trend is running strongly in the direction of political instability thoughout the democratic world, A few months ago, public opiniou polis revealed that scarcely a single political leader of the major deis being coordinated by Joseph Godson, who organized the Enrope-American Conference in Anisterdam last vear.

Japan, had the support of more than a third of his electorate.

In Western Europe, every gorernment rests upon the narrowest margin of support and challenges to authority and legitimacy loom large. In Japan, the long-time control of the conservative Liberal Democratic party appears threatened, not merely by the growing strength of the opposition, but also by the increasingly deep cleavages within conservative cir-

It is possible that the continuing weaknesses of the opposition, and divisiveness in their ranks, will prolong the atatus quo. At no time in the post-1945 period. however, have Japanese politics seemed less predictable. Meanwhile, as is now commonive

recognized, the United States faces the gravest problems of internal unity in decades, problems fed by the most bitter administration-media battle in the memory of American citizens. Under these circumstances, a

drift away from international concerns by the population is natural. The vital issues lie closs to home-connected with the great changes in life-style which the industrial revolution in its climactic stages is producing. Uncertainty aud disillusionment with politics have also led to widespread apathy. Hence, the mood at the grass-roots is toward narrowness, not breadth.

At present, popular sentiment in the major democratic states does not support international cooperation, let alone innovation. Rather, the current mood is one of neo-isolationism in the United States, neo-nationalism in Europe and Japan, and protectionsan everywhere.

And, in the absence of drnamic. popular leadership, there is no new vision or symbolism to counteract these trends. There is, thus, the danger that even if our political leaders achieve certain technical solutions to current international problems, these solutions will be forced to straggle for survival in a hostile political

atmosphere. Special cultural and political circumstances also pose obstacles Japan, like Britain, is an island nation lying off a vast continent. and the great historic issue for the two nations has been simila:: close cooperation with, or separation from that continent? The answer to this question can never he absolute - nor permanent. Thus, the effort of some Western statesmen to move Japan solidi" into "the Atlantic community" can never succeed.

Janan will always remain par'mocratic societies, including ly an Asian society despite 198

Neutralist Quotient

Since all alliance: in this era are less tightly knit, more porous, a certain tendency toward more independent, regionally oriented political and military policies-with some "neutralist" quotient-is now under way and His vill continue. Neither West Europe nor Japan, bowever, is littely to consider the time propitious for an experiment in fullfledged neutralism on the oue hand, or total military-political elf-sufficiency on the other. Thus, alignment-and competition-with the United States will re:naiu unportant. Similarly, in the economic

realm, autarchy-single-nation or regional-will be a significant facfor in this period of rapidly moving, diversified trends, but it cannot be the all-controlling force. A viable international monetary stem, suitable trade and invest ment policies, and a host of other issues in the economic sphere d-mand joint efforts on the part of the United Stales. West Europe and Japan at this point, But there must also be the clear recognition that such efforts can my be supplements to, not subcticutes for domestic, regional and

busineral noticies. The twin keys to our times are complexity and coordination, Mulilliered approacher to our most sue international issues, political and economic, are essential. Eut these approaches must be carefully coordinated: In concrete terms, this means that if the work of experts at one level is to be effective, we must find a way to revitable democratic polities at another level, so that our peoples will be prepared to support rational, complicated international policies. It is in these respects that the United States. West Europe and Japan share momentous common problems and hopefully, can find appropriate

By James F. Clarity

TEHRAN (NYT) .- There is an oil shortage in this casis capital that arems as annoying to Iranians as waiting in gasolinestation lines was to Americans and Europeans, While fuel-export money and

high hopes have accelerated the pace of life in Tehran, its residents are complaining that they cannot buy enough vegetable oil mostly used for cooking. Gasoline costs about 40 cents a gallon here, and such a relatively law price is considered every Iranian driver's birthright. Forty cents is also supposed to be able to buy about a pound of vegetable shortening. But the scarcity of this oil is considered a kitchen catastrophe.

No one, especially the consumers, seems to know exactly what is causing the shortening sbortage. A Tehran newspaper said: "The situation remains somewhat confused." It is possible, however, that the Netherlands may be able to help Iran with its oil crists. Iran supplies the Dutch with fuel oil; the Dutch amply Iranians with vegetable

Two months ago, a strain between Iran and the Netherlands developed when the Iranian ambassador was called back to Tehran, asserting that the Dutch police had failed to protect his ambassy properly during a demonstration there by dissident Iranian students. The rift, according to knnwledgeable diplomats, has now been healed, and the ambassador may soon return to The Hague, Whether this will help lubricate the cooking nois of Tehran remains to be

Modern Times

Still, the prosperity of the .. mes in Iran-with an expected quadrupling of national income from increased fuel-qil prices-has Tehran's residents rushing about the city as if the great civilization advocated by Shah Mohammed Reza Pahleri, who rules this

land, were already here. From the snow-topped Elburz Mountains on the northern edge of town, where many of the wealthy live, to the brown hills to the south near where the other people live, Tehran is sweeping into the age of automobile-clogged streets, soaring rents and the propensity to consume, or de-

Along the streets of this city of 3.5 million, about half the women still wear chadors, the Islamic veils that cover them from head to foot. Eut often a stray breeze whins a chador open to reveal a red-pants suit and patent-leather platform shoes. This is not considered irreligious, merely fortunate or unfortunate depending on the beholder or the beheld. Pashionable men wear turtleneck sweaters; most men bave black mustaches.

mand, the colorful and shiny ar-

tifacts of Western culture.

Paris Clothes

The largest department store in town, Exir, now boasts Paris clothes and has three detectives rosming its floors in search of shoplifters. The manegement decided not to use a television

security system because it felt that most of its customers were honest and would resent electronic surveillance. Color television is slated in

plant that will produce Winston cicarettes under an agreement with American producers. Tehran residents are said to prefer Winstons and can tell the difference when they smoke an ersatz American cigarette. Warnings about health hazards and smoking are net printed on cigarette packages here, but there

some acknowledgment that the habit may be harmful. This week an 11-year-old hoy, Jonid Akhlaghi was hospitalized for an ailment described as chain smeking. He said he would try to switch to a pipe when the hospital released him. Water runs down from the mountains into trenches called fubes to keep the city's trees alive and green, but Tehran is probably the largest city in the

thing that happened-that happened in public. I mean." In case his readers are slow to understand that Mr. Mears has just been praised for simply being able to do his job. Mr. Crouse then tells of the scene in the pressroom during a debate between Sen. McGovern and Sen. Hubert Humphrey during the California primary while both were seeking the Democratic

nomination. "Two other reporters." Mr. and read and speech, month after. Crouse writes, "one from New York, another from Chicago, York, another from Chicago, headed toward Mears shooting. "Lead? Lead?" A Boston reporter "came at him from another direction. Walter, Walter, what's our lead?' he said."

In other, nonjournalistic, words, the reporters were asking Mr. Mears to tell them what they had just heard.

Many Examples

Alas, there are many examples of such bumbling, Mr. Crouse recampaign, just before Mr. Nixon was to win with 60.83 percent of the vote, two New York Times reporters were betting that Sen. McGovern would come within five and two points, respectively, of Mr. Nixon. There's more of this. On the Sunday before the election, when The Times said on its front page that Sen. McGovern bad a chance to win only two states, Massachusetts and Wisconsin, the entire McGovern press corps attempted to bet the writer of the article that Sen. McGovern would win more than that. He won only Massachusetts among

the states. The second indictment-although the book is so generally genial that this may be too harsh a word-leveled by Mr. Crouse against the press corps is its physicai exhaustion point early and often, too, starting with an account of the phone call at 6:45 a.m. that awakens each reporter at a hotel in Los Angeles, "It was lonely on these early mornings," Mr. Crouse notes, "and often excruciatingly painful to tear oneself away from a brief, sodden spell of sleep."

Mr. Crouse then describes the way the reporters are berdedthere is no other word-out of the hotel and into a bus, out of the hus for a breakfast appearance by the candidate, back into the hus. back off the bus for a television raping, back into the bus, back off the bus for a luncheon and dash for telephones and Telexes, back into the bus for an afternoon identical to the morning. And a tomorrow identical to This routine, Mr. Crouse points

out, establishes a herd instinct, the same instinct that drives cartle into a stampede. He describes James Doyle of the Washington Star in a mood of doubt: ... Dead tired from a week on the road tlate in the campaign that runs from February until November, Later that night there would be a McGoveru lelethon and Democratic party dinner to cover ...

"A lot of people," he said, "look at this coverage as if it were some

he stops at Indianapolis and two more when he stops at Newark. If you do it that way, without making any meaning out of it, it is going to come out like some crazy disjointed trip across the country.-

"The problem is, if you try to write every day, you get caught np in sheer exhaustion. It's as aimple as that. You do it by rote, because that's all you've got the energy for. It's the lack of sleep, the keeping up with deadlines, the disorientation from all this flying around-your mind just goes hlank after a while. When it comes time to write the story, all you can do is just kind of a level job of stumbling through the day's events."

Although he offers no prescription for the reader who wants more than a "stumbling through" of the candidate's position, Mr. Crouse is quite busy as a diagpostician. This is another of his

chilling portraits: "If you stayed away from the campaign for any period of time and then came on again, the first thing that struck you was the shocking physical deterioration of the press corps. During the summer, the reporters had looked fairly healthy. Now their skin was pasty and greenish, they had ligly dark pouches under their glazed eyes and their bodies had

had arrived at the last two weeks to read about the campaign-

election articles. Yet all they could feel was numbness...

"During the last week, the press bus looked like a Black Maria sent out to round up winos; half the reporters were passed out with their mouths wide open and their notebooks fallen in their When they were awake. they often wandered like zombies. one of the last days of the On campaign, Jules Witcover walked from the Biltmore Hotel to a rally in midtown Manhattan and had to be repeatedly slopped from sleepwalking into traffic against Blll Greider. the red light. perhaps the most exhausted man on the plane, had a strange habit of placing his arms by his sides. as If wearing an imaginary straitjacket, and walking around in circles. Toward the end, the only thing that stimulated Greider's adrenal glands was martlal music. and he recorded the high school bands at every rally. Later, when he needed a shot of energy in the pressroom he would turn up his Sony all the way and bang away at his Olivetti as 'Onward Christian Soldiers or Happy Days blasted out of the speaker."

Mercifully, Mr. Crouse does oot harp or the insights that were being gathered and reported hy such zombies.

inform the reader? In this welter of permisites, did the press corps never imply a sense of mission? Mr. Crouse has no interest in this question, because, seemingly, his subjects do not. What he focuses on instead throughout his book is the stench of carecrisus in the press bus: . . A campaign reporters career is linked to the fortunes of his candidate. If he is writing about the front runner, he is guaranteed front-page play for his articles, and, as Walter Mears once told me. Everything is measured by play in this basi-If he can hang on to a winner through the primaries, he

Commodity index, based on 1967=100 the consumers price Index, based on 1967=100 the consumers price Index, based on 1967=100, and employment figures ere compiled by the Bureau of Labor Statistics. Industrial production is Federal Reserve Board's adjusted index of 1967=100. Imports and exports are compiled by the Department of Commerce, Money supply is total currency outside banks and demand deposits adjusted as reported by Federal Reserve Board, Business failures compiled by Dun & Bradstrect, Inc. Construction contracts are compiled by the F, W. Dodge Division, McGraw-Hill Information Systems Company. ompany. R-Revised.

to market.

Until very recently, there was no inceptive because banks were flush with surplus cash and were falling over each other in trying to lend money. As a result of this competition, banks were offering to lend huge sums for as little as three-eighths of a point over the LIBO rate—terms that could not be matched either in

the problem until now has been size or in cost on the public to convince a borrower to come market.

At this point, the terms available to Italy in the public market are almost as favorable as what can be had from the banks opening a new source of funds to the hard-pressed Italians, No chances are being takeo

on the loan not being a success and a syndicate of international (Continued on Page 11, Col. 1)

Another depression Friday was a report by the Commerce Department that the annual rate of imilation in the first quarter had been

11.5 percent instead of the 10.8 percent originally reported.

The large come 7 of say here aluminum issues. They came

By Thomas E. Mullanev NEW YORK, May 19 (NYT) .-Despite the rather depressing revision of the first quarter's economic record by the Commerce Department Friday, spring is becoming more verdant in the business world and the American economy seems to be olcasoming more broadly day by day,

It is true, of course, that the salubrious days of autimer have not yet appeared on the economic seene and it is certainly questionable how warm the business climate will really become this Nevertheless, the barometers of business activity in recent weeks have been consid-

erably more encouraging. The government's latest figures on the economy for the first quarter were both disappointing and surprising. They showed that real growth had dropped at an annual rate of 63 percent, instead of the 5.8 percent decline reported a month ago, and that inflation had soared to a rate of 11.5 percent, instead of the previous estimate of 10.8 percent. On both counts, that was making bad news even worse.

However, as outgoing Secretary of the Treasury George Shulls correctly observed recently at the Business Council meeting in Hot Springs, Ark., the least that can be said at the moment is that the direction of the economy appears to have changed-for the better.

Decline Is Over

The important lines on the graphs are no longer declining after the difficult winter, when rampant inflation, the energy crisis, dampened public sentanent and reduced demand for goods combined to cast a pall over the wbole economic picture and deeply clouded the future.

The two most important changes ooted recently on the

nations stagnature products to and the in These key fudicators. The the formulation in the majorities. Unload States will escape even a finite at the despite to the majority and recession in 1974. And, if

Washington's annual spending is already too robust and ought 10 be contained much better than it has been in recent years.

It look almost 190 years for the

Page 9

nation to reach the \$100-billion level of government spending back in fiscal 1962 and only nine years to double that figure to the \$200-billion level in 1971. Now, only three years later, the ex-plosion has carried the figure an-other \$100 billion higher.

More stimulus in spending at this time would only make the job of the Federal Reserve in curbing inflation that much tougher. The present state of the economy would seem to permit the Fed to stay longer on its tight-money course to rein in the worst spasm of inflation in the nation's

An examination of the current economic statistics would seem to support the optionists' viewnt the moment at least-that much, and perhaps most, of the first quarter's downturn in real economic growth was either energy-related or connected with various shortages of materials in certain sectors.

Cutbacks in auto production and electricity output were the major reasons for the four-mooth slids in overall industrial production that started late last year. A revised figure showed that the output of the nation's mines and factories was less than originally reported for March, and the preliminary report for April showed a fairly impressive gain of 0.4 perceut in that index for last

Moreover, the 6.3 percent drop in the real GNP for the first quarter might oot bave been as bad as it appeared on the surface, Most of the drop in terms of 1958 dollars during that period resulted (Continued on Page 11, Col. 3)

recently reopened sector of the

Bankers are also anticipating an imminent reopening of the Eurodentsche mark sector. A private placement of 20 million DM was recently negotiated for Fischer of Switzerland, The liveyear notes carried a coupon of 2-1/2 percent and were sold at par,

The obvious preference of investors for short-term paper could mean that the public market would reopen with note issues of five to seven years. In the secondary market, DM bond prices were off by about I percent last week, pushing the average yield to 10 percent.

Of interest to professional traders is news that Euroclear has reduced its fees. The clearing system charges for in-house transactions against payment was cut to \$2.25 from \$3.59 while transactions free of payment were dropped to \$1.75 from \$3. Euroclear has also eliminated the \$2 fee previously charged for the payment for securitles delivered by CEDEL, the competing clearing system. Euroclear has also announced a new schedule of volume discounts available to its member-bank participants.

'If It Moves, You Can Bet on It'

LONDON (IHT).- He was shouting the odds right up to the line Saturday night, but it was so different from the old days on Epsom Downs

Bookie Ron Pollard, a director of the British betting giant Ledbroke's, sat in his big office at Harrow-on-the-Hill. London, making his "book" on that non-horsey event, the French presidential elections.

A . 100,000-franc labout \$20,0001 bet on Valery Giscard d'Estaing was phoned in hy a wesithy Briton living on the Côte d'Azur. The mass of bets by Britons

on the horses and greyhounds were being noted on the openplan betting floor by a small army of girls with headsets. Mr. Pollard took the Giscard bet in his office and his large

Economic Scene

(Continued from Page 9) from a slower rate of growth in inventories. The auto industry. for instance, was a major factor in the decline. With sales slumping so badly, it cut production sharply and rau down inventorles of new cars. But almost all other industries were simply unable to get materials to bulld their m-

Now, with the gasoline situation at least temporarily eased, more people are buying new cars and Detroit has been stepping up its assembly pperations, albeit modestly.

Overall, the inventory picture remains quite modest throughout American industry. Inventories are not excessive, and sales are still keeping ahead of inventory accumulation. That fact is another buttress under the economy that was not present in other eriods of recession

If there is to be any significant rebound in the economy after its dismal first-quarter performance, the springboard will have to be revitalized consumer spending. That is the sector that, year after year, accounts for approximately two-thirds of this country's gross national product.

_ 4

For some time, however, the public's spending proclivities have been rather apathetic in a reflection of numerous concernsinflation, particularly, but also the energy problems, the stock market's prolonged doldrums and discontent over the implications of Watergate as well.

Now, however, there is at least glimmer of greater public confidence. No large number of jobs were lost as a result of the energy crisis last fall and winter, and personal income has held up rather well. Those factors have heen powerful positive factors. If the rate of inflation recedes in the food and fucl areas, the public's ability to spend for other things will be increased. And if the upward surge in interest rates can be checked, lessening the pressure on the thrift institutions enough to allow them to increase the availability of mortgage credit, housing activity may expand enough to give the economy the shot-in-the-arm it hadly needs

for greater vitality.

Adam's apple moved as he sual-The first rengious issest 70lowed. It was his only sign of small, a total of around flagon (\$34,000) by nets, but his, Poliaru and Ladhroke's Leve their eyes emotion. Suddenly, he cried out: Three to one on, Gucard." on the future for, as he suid: He sipped a scotch to soothe "As many people go to church on Sundays as to coorbail on Saiurdays."

He was pamed by suspicious

last-minute betting from maicery

beast."

one person knows, I cannot bet

his throat, and added: "I don't like to do it. for I am a Mitterrand man meself. He'd he good for France, Britain and Europe, But the price for Giscard reflects the betting, a lot of it from France, where this sort of book is illegal.

Forget It

Ladbroke's Takes on French Election, Too

"There's no room for seutiment, although I'm in this husiness for fun as well as money. I change the odds if the money says my original calculation was wrong and that goes for hetting on the color of the dress of the next girl though the door, who going to be archbishop of Canterbury, the capture of the Loch Ness monster."

The evening's dog racing was about to start, but the toolhy bookle 147 years old and 30 years in the game, allowed himself a last reflection upon the sporting event across the Channel.

"Tve got my private intelligence service in Prance and I had to make 2 to 1 against Milterrand. Between you and me. that's a tremendously good price.

Mr. Pollard introduced beiling to politics—"We won a lot on the last British elections." He also brought betting to cricket, where he somehow talked the elders of the game into letting him set up a "hetting marquee" at Lord:: Ground in London, and to motor racing, golf, show jumping, even quaint British pancake racing. He ran a big book when Goldie

the Eagle escaped from London Zoo, on the Miss World contest, the Leeds plano competition, the Oxford poetry chair. Many of these books were wide-

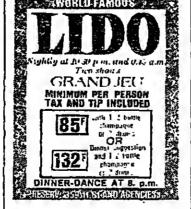

ly criticized and this was again the case with his book on the new archbishop of Canterbury.

Pollard say ticing Christian, but I knew nothing about the form on this one I checked the historical context, phoned the religious editors of the BBC and so on, met with the boys from the Church Times. I made the archbishop of York 2-1 favorite, but then I got a big bet of \$350 on this Durham fella Ithe Right Rev. Dr. John Habgood. Bishop of Durhaml. It come from someone inside the

It made Mr. Pollard think fast. He eased the price on York and made Durham joint second favorite at 5-1. The archbishop of York won in the end and called the "Archbishop Stakes," as Mr. Pollaro's book had been nick-named, "unworthy." He did add: 'I suppose however that it was good publicity for the church."

"Exactly," Mr. Pollard said. "I happen to know, through my intelligence service, that the previous archbishop, Dr. [Michaell Ramsey, approved of my book." although, of course, he did not have a bet."

one of two meet records when he ran 440 yards in 46.2 seconds. He also came from behind and anchored Eastern Michigan to a 3:13.9 victory in the mile relay that clinched the triumph.

Women's Cup In Tennis Won Bv Australia

NAPLES May 19 (AP).-Australia captured the Federation Tennis Cup, the women's Davis Cup, today with Evonne Goolagong and 'anet Young edgur the American pair of Julie Heldman and Sharon Walsh in a decisive doubles match.

The Australian victory, 7-5, 8-6, broke a 1-1 deadlock reached after the singles linal earlier in the day. In the first singles match,

Goolagong crushed 28-year-old Heldman, 6-1, 7-5, to put Aus-tralia into a 1-0 lead.

But Jeanne Evert rallied from a one-set deficit in the second single, to even the score at 1-1 with a 2-6, 7-5, 6-4 victory over Diane Prominditz.

It was the second victory in a row for Australia, which heat South Africa, 3-0, in last year's funal.

Thee Australian women have dominated the Federation trophy since its manguration in 1963, vinning the cup seven times against four for the United States

Fassbender Wins

MUNICH, May 19 (UPI).~ West German Juergen Fassbender won the men's singles title lociay at the 59th International Bavarian Tennis Championship, defeating François Jauffret of France, 6-2, 5-7, 6-1, 6-4,

Riessen Tops Newcombe

LAS VEGAS, May 19 (AP).~ Unsceded Matty Riessen pulled olf the biggest upset of the \$150,000 Alan King tennis lournament yesterday with a 7-6, 6-3 victory over top-seed John Newcombe of Australia in the scmtfinals. It was the second unset in as many days for Riessen, who best thurd-seeded Arthur Ashe Friday.

Hunt Is Chosen Shadow Driver

CHICAGO May 19 (AP) .--James Hunt, a Formula-1 driver from London, has been named to drive a Shadow sports car in this rear's seven-race Canadian-American Challenge Cup series.

The 26-year-old Hunt, winner of the April 7 nonchampionship grand prix at Silverstone, England, and runner-up in the 1973 U.S. Grand Prix, will team with Britisher Jackie Ohver in the Can-Am.

APARTHEID AND THE ARCHBISHOP The Life and Times of Geoffrey Clayton By Alan Paton. Scribners. 331 pp. \$10.

Reviewed by Edward B. Fiske

TN March, 1957, the Nationalist party in South Africa was rate preacher, a brilliant working for passage of a law that would restrict the right of few possessions and was gen black Africans to attend churches in sharing those that cam in white areas. On Ash Wednesday the country's Anglican bishops drafted a letter to the prime minister declaring that they could not obey any such law and the following morning it was sent off over the signature of Geoffrey Clayton, the archbishop of Cape Town. It was the 73-year-old bishop's last, and possibly his most courageous, official action. That afternoon he was found dead in his study of a heart seizure "Apartheid and the Arch-

bishop" is a biography of Clayton. It is also a tribute to the vitality of Christian orthodoxy -- including its potential for radical social witness—and it takes on special power by virtue of the fact that the author, Alan Paton, the journalist, novelist and political leader, is himself so much of a symbol of the ideals for which Clayton stood

Geoffrey Clayton was born in Leicester, England, in 1884 and served as a vicar in Chesterfield before moving to South Africa to become an archbishop, first in Johannesburg and then, be-ginning in 1949, in Cape Town, He was the compleat churchman, "He was a product of Rugby, Cambridge, England, his home and his church," says Paton.
"For his church he had a deep reverence, but the others were accidents'

A lifelong celibate Clayton was not particularly attractive physically-a large bald head, short legs, overweight-and his faults were as grand as his virtues. He was irritable, gossipy and fre-quently rude and was petrified by women. He believed that wine was one of God's most splendid gifts to mankind and was tolerant toward those who, like himself, sometimes abused it, but he was dogmatic in his opposition to divorce and birth control and once reprimanded a subordinate for getting married "When I was first ordained," he once said, "I made up my mind that no one should ever say, What a nice young man.' And no one ever did."

He was also, however, a way, and his faults were pered by a thundering sen humor. During a discussion gambling he devastated one s er who insisted that it wrong to gat "something for ing" by declaring, "I should to remind the previous sp that the essence of the C is that you do get some for nothing." When the w an aging rector informed that her husband had chos "die in harness" rather tha cept an offer to retire, he re That's all right for him what about the people in

cart?" Clayton was a theological ecclesiastical conservative, was suspicious of the ecum movement and openly disa with social activists such a Rev. Trevor Huddleston preached civil disobedience means of opposing the sepa racial policies of the govern Yet it was just this conserv that made him a radical to own way. He believed in dering unto Caesar the thir Caesar and unto God the t of God; but he knew which which and left his prioriti mind when he talked about : such as race.

"Our Lord taught us tha worst sin against a human is to treat him with conte he said in his enthronement mon in the Cathedral o George in 1949, "and the sin against God is to regar of those He loves with cont If the church is to be tru her master, she must be espe the friend and champion o underprivileged,"

In the end he was driver the civil disobedience he so liked, "I don't want to s. prison," he told a colleague signing the letter to the principles of the minister. "I'm an old man don't want to end my da: prison, But I'll go if I have Paton is an active Ang

SPASSKY/BLACK

By Robert By

Boris Spassky, before his defeat by Anatoly Karpov in their semifinal candidates match in Leningrad, knew what he was up against, but not how much.

In a recent article in Chess Life and Review, the former world champion commented on the "soundness and pracgames, a solid, somewhat passive style, a slow, diffi-cult method of play based on sound, rational evaluation of the position."

the position."

Spassky went on to acknowledge that during 1972, Karpov "made a powerful, qualitative leap forward."

"A greater aggressiveness appeared in his game," Spasaky wrote." "He began to take chances more willingly and more daringly." In both his original assessment of Karpov and in his addition to it, Spassky indicated that he understood Karpov's style perfectly.

perfectly.

His trouble was that he still could not handle it.

Superior Play Decisive

In scoring four victories to Spassky's one, with six draws Karpov confuted the majority of his fellow grand-masters, who had picked Spassky as a close favorite. Nor was there anything freakish about Karpov's stunning success his superior play throughout did. atunning success his su-perior play throughout did

perior play throughout did it all.

I had remarked after Spas-sky's disaster in the third game, in which he tried the hypermodern Ring's Indian Defense, that he proved to be a duck out of the familiar water of classical play. But even when he returned to he favorite Tartakower varistion of the Queen's Gambit in the 11th game, Karpov out-played him sharply to put away the match. Spassky could not free his

PARIS, May 19 (IHT), -- French behind Mississippian was Mnutrainer Roger Poincelet, a possessive man, had to let his colt out of his hands for about two minutes today. The two were later remited in the winner's

Dankaro, a muscular 3-year-nid colt, used his long stride to win the \$150,000 Priz Lupin. It was the horse's third straight victory, and the third time Gerard Rivases has been his jockey. But the only reason Poincelet lets someone else on his horse is because he has retired from riding. During his long career as a

jockey, Poincelet established a reputation as France's best Year after year, he rode the most winners, until age caught up with him, Now 45, he is a trainer—a career which has been more trying than riding. Along came Dankaro, and Princelet won't let him out of his sight. In the mornings, when most trainers give their exercise boys

instructions on how in handle . their horses. Poincelet refuses to let anyone get up on Dankaro except himself. The extra work didn't bother Poincelet today—nor did it seem to annny Dankaro, who had to go all out to win by half a length at Longchamp. After watching his horse win for the third time today, the last two on television replays. Poincelet smiled and said, "He's the one who makes me work in the morning."

The horse which extended Dankaro today in this 2,100-meter (about a mile and three-eighths: race, which displayed most of France's better 3-year-olds, was Mississippian, who led at the top of the stretch. Rivases, not wanting Mississippian to grab too hig a lead, made his move on Dankaro with 300 meters left and suddenly Poincelet was sorry he was not still a jockey.

"Too soon, too soon," he said while watching the TV. "It was an excellent ride until the end. He should have waited a little longer." But the only damage the premature move did was throw scare into Poincelet. Third

next step for Little Current, according to Rondinello, is the Belmont Stakes, the 1 1/2-mile event that rounds out the Triple Crown,

Little Current's achievement

Miguel Rivers, who is subject to Puerto Rico, "found the shortest way home" to a Preakness victory yesterday.

The 30-year-old jockey found the opening on the rail with Little Current and streaked to a seven-fength victory.

"I had a great borse and I

never was worried about the in-

side," he said. "It's the shortest way home. I never had any trouble on the rail all the way. At the eighth pole, we were flying and I hit him only once." He paid special thanks to his fellow Puerto Rican, Angel Cordero, winuer of the Kentucky Derby on Cannonade, for recommending him to Little Current's owner, John Galbreath, and trainer Lou Rondinello to ride the Darby Dan Farm entry in the 90th Preakness.

It was Cordero who persuaded Rivera to return to the U.S. racing scene several years ago when Rivera became homesick and went back to Puerto Rico after a successful 1967 riding debut at Churchill Downs.

Cordero made no excuses for Cannonade, who finished third, "He just couldn't get hold of the track," he said, "I moved him up in the stretch, but he didn't

Rondinello said Cordero had recommended Rivera as a jockey before the Kentucky Derby, where Little Current finished fifth after running 23d in the early stages. Of Little Current, the trainer said: "This is the type of horse that really runs at the end and he proved it today."

waited and then got him through on the rail at the right time. It was a tremendous move and a tremendous ride." He predicted that Little Current

On Rivera's performance he

game of a doubleheader.

Sunday: Mangual Grand Slam Beats White Sox

CHICAGO, May 19 (CP) --Angel Mangual's first career grand-slam homer highlighted a five-run outburst in the first inning today and the Oakland A's went on to trounce the Chicago White Sox, 8-3.

Mangual, who collected four straight hits last night, drove in his fifth run on an infield out in the third inning.

Oakland manager Aivin Dark inserted Paul Lindblad in the White Sox ninth and the Oakland southpaw gave up a threerun homer to Brian Downing, his fifth of the year. Chicago's Stan Bahnsen, who threw 45 pitches in the two innings he worked, walked the bases loaded. A walk to Pat Bourque forced in Bill North, Mangual then stroked a 2-1 pitch into the first row of the rightfield stands for his lirst homer

of the year. Bahnsen gave up a double to Reggie Jackson and walked Gene Tenace in the third before being replaced by Ken Tatum, Bourque then singled home Jackson and Tenace scored on Mangual's force

Red Sox 11, Orioles 2 At Baltimore, Rico Petrocelli fed Boston's 17-hit parade with four singles as the Red Sox beat Orioles, 11-2, in the first game of a coubleheader behind

pitcher Reggic Cleveland. The Orioles established a club record for shabby fielding by

Observer

The Sources Family

By Russell Baker

WASHINGTON. -To find out Sources, "there won't be a soul Watergate affair these days you have to go to a mysterious group of people who are never publicly identified except as "sources." All are members of the infamous, tightly knit Sources famfly, which has ter-

rorized government for the last four detades and now has tentacles reaching into the highest offices in the laod. The family founder. known to two geogra-

Baker

tions of terrified bureaucrats as Harry the Source," arrived in Washington on a cattle boat 40 years ago without a single piece of reliable information about who in the government was eo-

gaged in a swindle. "In a town like this, where nobody ever tells the truth." Usually Reliable Sources, "a man can make his mark just by telling people what the score really is. Ten years later. Harry the Source was feared throughout Washington almost as deeply as J. Edgar Hoover. At about that tune, he abandoned his old name -- Harry the Source didn't command the respect he insisted noon-and legally took the new first came of "Unimpeachable."

Soon Unimpeachable Sources and his wife, Usually Reliable, vere raising a big family. Among the older children were names destined to become household vords before America ever heard of Spiro Agnew. They included the garrulous Highly Placed Sources, the treacherous and ruthless White House Sources and such shadowy younger brothers as Sources Close To The Investigation and Sources Familiar With The Documeots, both of whom were scarred in early childhood because their parents put their last names first.

When Harry the Source died six months ago, his aging widow inherited the directorship of the family after a brief but devastating power struggle with her ambitious son. White House Sources. "When I get through with you," the aging but flery Usually

what is happening in the Reliable told White House left in this country who will believe anything you say." She was as good as her boast. Today a threadbare White House Sources spends his days being thrown out of the National Press Club b2r by reporters outraged

at his attempts to trade tainted tidbits for dry mertinis. To signalize her take-over of the clan, Usually Reliable, or 'Maw Leaker." as she is affectionately known around town, momentarily considered assuming her dead husband's name-

Unimpeachable Sources - as a sort of official title. She changed her mind when the President began poblicly announcing that be was unimpeachable. "The name of Unimpeachable Sources," she said,

After the Watergate story burst upon the public, it looked as if the Sources family was out of business. If Watergate had proven anything, everyhody said, it was the folly of government secrecy and government lying.
There were faint hearts around

"can no longer be relied on."

the Sources' hearth for a few weeks. "If government is going to quit operating in secrecy and start telling people what's going on." said timid, cookie-pushing State Department Sources, "it looks like the Sources family is ali washed up.'

The old matriarch said they'd just see about that, and went off to the White House, and then to the Capitol, where she talked to the House Judiciary Committee. Her talks brought immediate results. Almost instantly, the White House issued the Watergste tape transcripts in such a zarbled and highly edited version that everybody realized the transcripts were designed to conceal

what was really going on. Old Usually Reliable has no comment. Insiders, however-he is IRV Insiders, who competes with the Sources for cootrol of the public-information flow-says the old woman is not above threatening to dump everything all the Sources have on both the White House and Congress rather than see her boys put permaneotly out of work. That threat would do the trick, according to Highly Qualified

'This project has done a great deal for our identity. We have worked hard at it and are reasonably proud of the end results. We think our products are good. We may have shown that Indians don't necessarily have to be on government welfare."

Salmon-Happy **Europe Supplied** By U.S. Indians

By Jan Sjöby

PRUSSELS (IHT). - In a tame beyond memory, tha Lummi Indians began to fish the ocean on the tidal banks of the Puget Sound in the northwesternmost part of what is now Washington State.

About 100 years ago, the Great White Fathers in Washington, D.C., decided that they were to farm the soil.

In 1968, the Lummis reached a compromise: They would farm, all right, but they would farm the sea. With federal aid in the form of money and scientifictechnical know-how, they developed in a few years what has been termed the most sophisticated aquaculture project in the world, turning out salmon, trout and oysters. A subspecies of freshwater salmon, able to breed in salt water, was developed.

This month the Lummus began exporting to salmon-happy Europe, using Antwerp as a center of distribution. An initial shipment of 2,000 pounds arrived in mid-May, to be sprinkled across the Continent. More is to come. The Europeao distributor is the firm of Pierre Hottlet & Co.

"I believe," said James H. Feldman, press attache with the U.S. Embassy in Brussels, "that this is the first Indian-produced export to reach the Old World, not counting haudicrafts."

Chief Sam Cagey of the Lummis was in Brussels to present his tribe and its products to Europeans. He told this tale:

The Salish-speaking Lummis, before the 1850s, the chief said, were one of the most prosperous tribes in the Puget Sound area. They were fine shipbuilders, excellent navigators, master fishermen. They lived ao arcadian life in well-built woodeo houses and feasted ou marine species that, at present, command minor fortunes in places like Paris and New York.

Disaster came with the arrival of the white man. The Lummis were pushed into a 12,000-acre reservation, encouraged to farm the laod instead of fishing the sea, White man's pollution interfered with the

Chief Sam Cagey, at home in Washington, flashes sign of success.

salmon runs. The Lummis were reduced to odd jobs, government dole and poverty. Writer Vine Deloria jr. notes in a communication to the Smithsonian Institution that "government agencies were advised to avoid them at all costs."

The Lummis decided to face the sea. once more. They did not have greeo

The decision was a wise one. With government financing, Lummi labor built a three-mile earthen dike around 750 acres of rich Pacific tidelands. According to initial calculations. about 50 feet a day coold be built. The Lummis, their imagingtions fired by the idea, built 100 feet of dike a day. The result was a controlled breeding pool for salmoo, trout and oysters, eventually expected to yield an annual 2,250 toos of gourmet seafood.

Aquaculture requires a great deal of know-how. A number of young Lummus went off to colleges and universities.

"Ten years ago," Chief Cagey said, "only three members of our 1,000-member tribe had any semblance of higher education. Now that figure is 65. Ten years ago we were a poor, underdeveloped Indian nation. Now our annual per-capita carnings are up to those of the average for Washington

The Lummi salmoo is small, measuring about 12 inches. The flesh is firm, light

When asked if the Lummi salmon is regular salmon, Salmo salar, the chief replied: "I doo't speak much Latin. It's coho in Salish Lummi, yearling silver salmon in Washington State English."

The fish are delivered frozeo in plastic bags. The chief was asked for a recipe: "Very simple," Chief Cagey said, "we skewer it oo a wooden spit and barbecue it over charcosl."

The Lummi salmon is also fine ovenbaked in aluminum foil or boiled with vinegar, a few bay leaves and a lot of

"Let the French have a try at it," mumbled Mr. Feldman. "They are bound to come up with any number of recipes." Chief Cagey was somewhat cagey about the prospect for European consumption of Lummi oysters and Lummi troot. His answer, in accented English, sounded like "wait and see." If the other Lumml seafood products are as tasty as the Lummi salmon, it would be worth the wait.

"Why did you pick Antwerp as a transatlantic bridgehead, a journalist asked. "It's central," Chief Cagey said. "We hope to sell our salmon to Italians as well as Scandinavians." "This project has done a great deal for

our identity," said Chief Cagey, "we have worked hard at it and are reasonably proud of the end result. We think our products are good. We may have shown that Indians don't necessarily have to be on government welfare. We are teaching our tricks of the trade to other Indian tribes in various parts of the country." Mr. Feldman moved in noting that it

was time for Chief Cagey's appearance on Belgian TV. "One moment." said the chief, "I want to sing a couple of songs." He grabbed an instrument—somewhere in between a drum and a tambourine and sang in Salish Lummi. His first song sounded sad, his secood, although unintelligible to his largely European audience, sounded full of hope.

Inka Dinka Doo PEOPLE: And Other Pleasures

As Jimmy Durante used to say. you've gotts start off each day with a song. So:

On a summer's day In the month of May A burly bum came hiking Down a shady lane Through the sugar cane He was looking for his liking. As he walked along He sang this song Of the land of milk and honey, Where a bum can stay For many a day

And he don't need any money: **CHORUS** Oh, the buzzing of the bees In the cigarette trees.

Near the soda water fountain, At the lemonade spring Where the bluebirds sing Near the big rock candy moun-LOST.

Nostalgia Dept.: Where is Jimmy Durante today? Still alive and well in California, at last reports. Who else remembers those sweet days when he ended his radio programs with "Good night. Mrs. Calabash, wherever you are"? Those innocent days when nobody had an idea what a calabash was, let alone a Mrs. Calabash,

Now that's postalgia, Ted Williams, Sabu, Fats Domino causing a riot in Fitchburg, Mass., in 1956—they're nostalgia. Maria Montes expiring in a bubble bath-she's nostalgia. Ditto Homer and Jethro doing "Hearthreak Hotel," and John

A sure sign of age is that current nostalgia seems to incorporate those things that untrendy S. Justice forgot to notice yester-day: people sighing for the days when Henry Aaron had only 713 home runs.

Still, one man's meat is another man's poisson, so the first Instant Nostalgia Competition is herewith declared open, entries to consist of the piece of nostalgia closest to the date of this newspaper. Neatness does not count, but sincerity certainly does. Responses cannot necessarily be acknowledged, printed or otherwise re-warded, and residents of Indiana are not eligible. (Remember Indiana? Sigh.)

Speaking, as we were, of trendy, the magazines New York and Newsweek have gone after Thomas Pynchon with all the abandon of a stockbroker's widow pursaing

the country club golf pro. Pynchon sort of made ne not winning the Pulitzer for his novel "Gravity'e Rain there was precious little for body to write about, since chon lives the life of a l crab. No interviews, no a ances on talk 'ows, no con except his writing.

BUSINESS

AGENTS DISTRIBUTORS

REAL ESTATE TO LET. We are looking for agents, distribu-tors, who are willing in represent our company ell over the world. Cities, states, coontries are still free.

These companies are looking in Eurodollars capital and offering securities in Swiss Prancs or German Marks. It is not necessary for our agents to be qualified in this branch. Excellent opportunity for large turn-uver, normal commission, best secu-rity for your client.

Would You Be Happy With

This has been our advertising campain for many months and hundreds of investors were indeed pleased to think in terms of 2 x 20 percent. We finally must apologise, the commodity market in the last months has been so active their many of oor chents have earned 5 x 20 percent in 3 months. We are very pleased for them and happy about the market. If you would be pleased with 30 percent 2 and more times a year, the markets might surprise you too.
